

**KITO**

Certified  
Service Partner

**KITO** Armaturen GmbH

**KITO® KARE**  
**KITO® Authorized Repair Engineers**

The KITO® KARE label identifies our service partners who are certified for the maintenance and repair of KITO® valves by an audit procedure. Our service partners offer you qualified and direct support on site. The knowledge of our service partners is always kept up to date through regular training and internal exchange of experience. This way we guarantee the highest quality and safety of our products.

**This isn't the way it was supposed to look on your company, is it?!**

As a manufacturer of ATEX protection systems, KITO® has very high demands on the quality and safety of its products. This should be ensured by regular maintenance and if necessary repair depending on the operating conditions must be ensured.

Being an approved manufacturer and registered maintenance company we will be pleased to advise you on the control checks as well as other maintenance and adjustment work and how to do this safely. We also train your employees how to maintain our devices at our premises or on-site, whichever is more convenient for you. The aim is to maintain the product life cycle through the use of qualified service partners and, if necessary to be extended. This also prevents malfunctions and system failures and guarantees operational reliability.

KITO® KARE service partners are companies audited by KITO Armaturen GmbH who are able to provide qualified service due to their organization and equipment of the workshops.

Our certified maintenance and service partners can be found on our website [www.kito.de](http://www.kito.de) under the menu item KITO Maintenance.

Or you can contact us directly at
